

Happy Cell[®]
ASM

A whole new way for 3D Cell Culture

- Simple to use
- Automation friendly
- Cost effective
- Keeps Cells in Suspension

Happy Cell[®]
ASM developed to grow cells in 3D

It is the unique, easy to handle, low viscosity culture media that:

- Supports 3D growth in Cancer, Stem and Primary Cells
- Allows for Rapid Tumour Spheroid Formation
- Has proven efficacy when growing Stem Cell Organoids
- Enables quick & easy harvesting of Cells & Microtissues
- Is suited to Flow Cytometry
